REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: While the German patent document DE 19956482 has the collapsible top with front and rear retainers 4a,4b and pivotal side frame members 7,8, it lacks a teaching of retention of the top to the retainers. The Russian Patent Document details a received fabric within a slot, but lacks the environment as claimed. The document to Essig et al. teaches fabric retention by means of a transverse slot in figure 21, but lacks the claimed location of the slot in the retainer, i.e. "all along an outer edge", being inwardly located.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis H. Pedder whose telephone number is (571) 272-6667. The examiner can normally be reached on 5:30-2:00.
